

# BINARY RHYTHM

# TUPLETS

# POLYMER

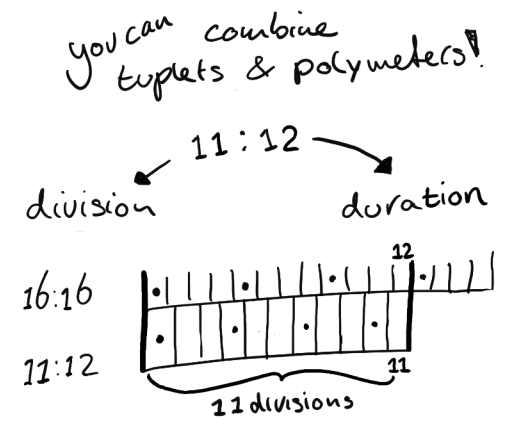

new timing, same duration  
musically connected every cycle?

# POLYTEMPORALITY DIVISIONS & DURATIONS

Each TUPLET is a new TEMPO

$16:16 = 144 \text{ BPM}$   
 $17:16 = 153 \text{ BPM}$

we're squeezing in an extra step per cycle

Don't believe it?  
 $144 \times \frac{17}{16} = 153 \text{ BPM}$
